Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 74,76-84,86-91;104,106-110,112-116,118 and 120-133 and 136-139.

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

(i) a component or portion of a catheter comprising a material having a specified tensile strength and/or a specified hoop stress but no specified post buckle fracture tensile strength or hoop stress ratio (recited in claims 74-91 and 130-133, not including those claims that fall within these ranges of claims that have been cancelled)

(ii) a component or portion of a catheter comprising a material having a specified hoop stress ratio (recited in claims 104-116, 136 and 137, not including those claims that fall within the range of claims 104-116 that have been cancelled)

(iii) a component or portion of a catheter comprising a material having a specified post buckle fracture tensile strength but no specified hoop stress ratio (recited in claims 118, 120-129, 138 and 139)

The species are independent or distinct because the identified species are not connected in any of design, operation, or effect under the disclosure.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 1772

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

WITHDRAWN REJECTION

6. The 35 USC 112, first paragraph, rejection made of record in paragraph 7 of the previous Office Action mailed November 2, 2006 has been withdrawn due to Applicant's arguments on pages 9-12 of the Reply filed January 29, 2007.

Claim Objections

7. Claims 134 and 135 are objected to because of the following informalities: claims 134 and 135 depend upon cancelled claims (claims 92 and 99). Appropriate correction is required.
